Copper Retirement in Idaho

First Implementation Date: August 26, 2024

Original Date Posted: May 5, 2024

Summary:

Copper retirements are necessary to respond to various factors in the Outside Plant, including road construction, maintenance problems, and growth accommodation. Specific information will be provided with each disclosure.

CenturyLink is replacing its copper feeder facilities to the three pair gain systems shown below with new fiber feeder facilities. These copper facilities are being replaced to provide better customer service. This retirement will have no impact on the copper distribution facilities used to serve customers in this area. There are no CLEC lines in this copper retirement area.

Locations, Timing of Deployments & Interface Requirements:

The following gives additional details on the copper retirement(s):

STATE	WIRE CENTER/ CITY	PLANNED COMPLETION OR RETIREMENT DATE	SERVING TERMINAL	COUNTY	DETAILS
ID	IDCYIDMA Idaho City, ID	08-26-2024	Pair Gain Systems at 28 Grimes Pass Rd, 126 Grimes Pass Rd, and 204 Placerville Rd.	Boise County	CenturyLink is replacing copper feeder facilities to the three pair gain systems shown with new fiber feeder facilities. The copper feeder has had multiple repairs and is being replaced to provide better customer service. These three pair gain systems feed into one another so the new fiber will connect the central office to the first system, then continue to the second and then the third. This retirement will have no impact on the copper distribution facilities used to serve customers. There are no CLEC lines in this area.
