

## *Network Disclosure Announcement No. 757 issue 3*

Short Term Public Notice Under Rule 51.333(a)  
Qwest's Internet address: <http://www.qwest.com/disclosures>.

### **NG9-1-1 for the State of Washington**

**Implementation Date:** **October 1, 2012**

Original Date Posted: August 1, 2011

**Issue 3:** This Network Disclosure is being reissued to include the required project codes, see below. Also to clarify primary and alternate routing to the LNG CLLI codes.

**Summary:** Qwest in partnership with Intrado, announces the deployment of Next Generation 9-1-1 (NG9-1-1) services in the State of Washington (WA). This new service, with its associated network, will provide IP connectivity to all Public Safety Answering Points (PSAPs) within the State of Washington for the delivery of all 9-1-1 calls. NG9-1-1 will be replacing the Qwest legacy E9-1-1 Selective Routers (SRs). To ensure delivery of its 9-1-1 calls, all service providers will be required to route all of their 9-1-1 emergency calls to Legacy Network Gateway (LNG) sites as listed below. The LNG is the interface to the Qwest NG9-1-1 network. Future requests for access to the WA PSAPs will also need to adhere to this new architecture as detailed in this disclosure.

Carriers should provision new facilities to each of the Qwest Next Generation Aggregation Points (NGAP) for each LATA as indicated below and diversify their trunks over both facilities and LNGs. Qwest will aggregate the trunks onto facilities to the LNGs. Carriers are also asked to convert all trunks to SS7 signaling.

The process for ordering facilities or trunks will not change, carriers must still contact Qwest. As part of the trunk order process LNG CLLI, point code assignments and primary/alternate LNG traffic routing will be provided to each carrier. Please contact Intrado at: [ienvprovisioning@intrado.com](mailto:ienvprovisioning@intrado.com) if you have questions concerning the LNGs.

**Locations and  
Timing of Deployment:**

**For the Seattle LATA (674) the NGAP/LNG locations are:**

Seattle, WA  
NGAP CLLI: STTLWA06K91 (primary facilities, project ID “NG911-WA-C”)  
NPA/NXX: 206/377  
LNG CLLI: STTLWAWB0ED point code 002-115-030 (primary trunks, project ID “NG911-WA-M”)

Tukwila, WA  
NGAP CLLI: TACMWAF21 (alternate facilities, project ID “NG911-WA-C”)  
NPA/NXX: 206/281  
LNG CLLI: TKWLWALL1ED point code 002-115-031 (alternate trunks, project ID “NG911-WA-M”)

**For WA customers in the Portland LATA (672) the NGAP/LNG locations are:**

Portland OR  
NGAP CLLI: PTLDOR69K22 (primary facilities, project ID “NG911-WA-C”)  
NPA/NXX: 503/275  
LNG CLLI: STTLWAWB0ED point code 002-115-030 (primary trunks, project ID “NG911-WA-M”)

Portland OR  
NGAP CLLI: PTLDOR13K22 (alternate facilities, project ID “NG911-WA-C”)  
NPA/NXX: 503/231  
LNG CLLI: TKWLWALL1ED point code 002-115-031 (alternate trunks, project ID “NG911-WA-M”)

**For the Spokane LATA (676) the NGAP/LNG locations are:**

Liberty Lake, WA  
NGAP CLLI: SPKNWA01K22 (primary facilities, project ID “NG911-WA-C”)  
NPA/NXX: 509/255  
LNG CLLI: LBLKWABG0ED point code 002-115-030 (primary trunks, project ID “NG911-WA-M”)

Yakima, WA  
NGAP CLLI: YAKMWA02K22 (alternate facilities, project ID “NG911-WA-C”)  
NPA/NXX: 509/248  
LNG CLLI: YAKMWA0V1ED point code 002-115-031 (alternate trunks, project ID “NG911-WA-M”)

Implementation Date: Issue 2; Move to October 1, 2012 service providers should plan to move their traffic to the new network between the implementation date and December 6, 2013. Please contact your Qwest Service manager with questions and to schedule implementation. New trunk groups and new service providers should establish trunking to the NGAPs/LNGs as described above after February 1, 2012. Augments to existing trunk groups will continue to be terminated on the legacy Selective Routers until after the implementation date when new trunk groups should be established via the NGAP/LNG configurations above.

**Interface Requirements:** Please contact Intrado at [ienvprovisioning@intrado.com](mailto:ienvprovisioning@intrado.com) for additional information on the LNG.

**Additional Information:** Service providers desiring additional information in conjunction with this notification should contact their Qwest Service Manager or you may contact:
