Network Disclosure Announcement No. 852

Short Term Public Notice Under Rule 51.333(a)

CenturyLink's Internet address: <http://www.centurylink.com/disclosures/>

E9-1-1 Served by CenturyLink's PlantCML Sentinel ECS-1000 Routers/ANI-ALI Controllers in the State of Wisconsin

First Implementation Date: *March 1, 2022*

Original Date Posted:

November 19, 2021

Summary:

CenturyLink announces the planned decommissioning of the Berlin ECS1000 9-1-1 Selective Router. All 9-1-1 trunks will be transferred to an existing DMS-100 switch that shall provide the Selective Router functions. The Telcordia® LERG™ has been updated accordingly. In addition, the 9-1-1 voice trunk network currently provided by CenturyLink's ECS-1000 serving two Wisconsin PSAPs will be rehomed to the Warrensburg DMS100 CenturyLink Selective Router.

If you have not already done so, Carriers will need to provision new end office 9-1-1 trunks (ES trunks) for the impacted counties/PSAPs to the new Berlin POI listed below. This connection will ensure your traffic is routed through the Warrensburg DMS Selective Router that will be serving the impacted PSAPs.

After the migration, the Berlin ECS1000 Selective Router will be decommissioned and the 9-1-1 Selective Routing services in will be handled by the Warrensburg DMS-100 CenturyLink Selective Router (via the Berlin POI).

The impacted Counties and PSAPs include:

- GREEN LAKE 911
- WAUSHARA CNTY EMERGENCY SERVICES AND SHRF DEPT

Current 9-1-1 Selective Router Name	Berlin
Current 9-1-1 Selective Router CLLI	BRLNWI011ED
Current 9-1-1 Selective Router Type	ECS1000
Current Point Code	232-099-016
New 9-1-1 Selective Router Name	Warrensburg MO (via the Berlin POI)
New 9-1-1 Selective Router CLLI	BRLNWI012ED
New 9-1-1 Selective Router Type	DMS100

New Point Code	239-012-002
Implementation Date	March 1, 2022

Interface Requirements: Technical publications for the 9-1-1 Selective Router may be obtained from:

LERG
BIRRDS
